

Interview Preparation

THE VIRTUAL INTERVIEW

ANSWER #12

Question: *Where do you want to be in 5 years?*

1. Incorrect: This answer might be true but it could very easily threaten the interviewer.
2. **This is the best answer:** This answer suggests both a desire to move up and an understanding that the exact pace of movement is subject to many factors. Reassuring the interviewer of a desire to stay with a company is always a good idea.
3. Incorrect: This answer might also be true--but it says that you intend to learn on the job and then become a potential competitor. Few interviewers would look forward to training their competitor!
