**Turn your Echo smartpen on.**

Power button

Microphone

Built-in speaker

Micro USB cable

---

**Tip:**
If your smartpen doesn't power on, you may need to charge it. To charge, make sure your computer is on and awake (not in sleep mode), and connect your smartpen to your computer with the included micro USB cable. A full charge may take up to 2.5 hours.

---

The printed buttons in this guide really work! Use your Echo smartpen to tap within the orange-framed areas below.

**Setting up your Echo smartpen**

**ENGLISH**

Tap to choose your locale, then tap a second time to confirm. To further customize settings, navigate to the Settings menu with the Nav Plus control.

Tap the **i** buttons in this guide with the tip of your smartpen to hear additional information.

**Display orientation**
Tap a button to set your screen orientation.

**Time and date**
1. Tap "set date" with your smartpen, then tap numbers to set the date.  
   **Example:** tapping 041511 sets to the April 15, 2011.
2. Tap "set time," then enter the time.  
   **Example:** 12:18PM sets the time to 12:18 PM.

---

Tip: It's important to set the time and date on your Echo smartpen because your recorded notes are time-stamped with the date and time they were created.

Did you know that there are other locales available for your smartpen? Navigate to the Settings menu to select a different locale.
