## STUDENT EMERGENCY CONTACT INFORMATION

We have undertaken steps to provide notifications in case of emergencies on campus or in Gunnison. Primarily, this will be accomplished through text messaging, e-mail and on-campus signs or alerts. In order to add a student's cell phone to the text messaging alert system, please answer the following:

Check one:

My telephone service is capable of receiving text messages and I wish to use this means for emergency notifications and infrequent system tests.

Mobile phone service:       AT&T Wireless       Sprint       Nextel  
 T-Mobile       Verizon Wireless       Other service: \_\_\_\_\_

I do not have text messaging service or I wish to opt-out of this notification service.

I understand and acknowledge that Western State College of Colorado must keep up-to-date contact information for all students in the cases of emergency and security situations. I also understand that my information is kept confidential and is not public. I understand that this is solely my responsibility and agree to keep my contact information up-to-date.

## ACKNOWLEDGEMENT OF WESTERN E-MAIL AS A PRIMARY MODE OF COMMUNICATION

Western State College of Colorado provides e-mail accounts to all students. This e-mail account is the PRIMARY method for all administrative and non-emergency communications from Western State College. Your WSC email is:

Student Name	Western State College E-mail Address

Students may have other e-mail accounts that they use. However, a student's Western e-mail account is the one faculty and administrators expect will get important messages to students.

I understand and acknowledge that Western State College of Colorado's primary method for administrative and non-emergency communications is the email account that the college has set up for me. I understand it is solely my responsibility to check this e-mail account on a regular basis or forward it to an account that I do check on a regular basis. I accept the responsibility for lost or misdirected should I elect to forward my Western e-mail to another service.
